

# THE VENT-A-HOOD® PREMIUM POWER LUNG™

## POWER LUNG™; POWER VALUE

The V-Line with Power Lung™ brings luxury and superior performance to the value range hood category. Get the quality you need from the brand you've always trusted for kitchen ventilation.

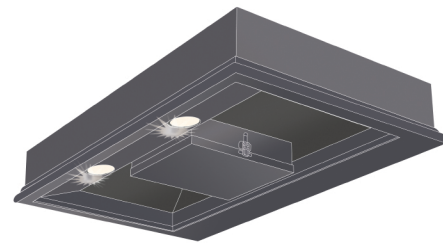

## CLEANING IS A BREEZE

Grease from cooking is captured and stored in the V-Line's collecting tray. To clean, simply locate the tray and slide it out to remove, then wash either in a dishwasher or with warm soapy water, then let it dry and put it back.

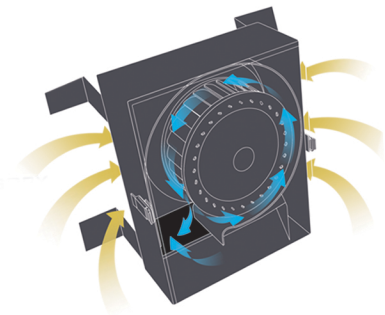

## LED LIGHTING

Our V-Line hood comes equipped with the latest in LED lighting technology. After all, you want to be able to see your delicious creations while you're cooking them up.

## BETTER TOGETHER

The exclusive Vent-A-Hood® Power Lung™ Blower and Centrifugal Filter chamber are built together to work as one in a single housing. Engineered to provide superior performance, the Power Lung™ eliminates grease that baffle filters and mesh screens do not.

## DESIGNS THAT FIT YOUR NEEDS

The V-Line with Power Lung™ technology has designs made for under-cabinet, wall-mounted, or liner insert usage, allowing homeowners and builders to find the option that fits their kitchen best.
