

THE VENT-A-HOOD® BUDGET LINE

BEAUTY WITHOUT BREAKING THE BUDGET

The Vent-A-Hood® M-Line brings the quality you've come to expect from the leader in kitchen ventilation at a price point that fits almost any budget. The M-Line uses the highest quality brushed stainless steel canopies, perfect for the look of a modern kitchen.

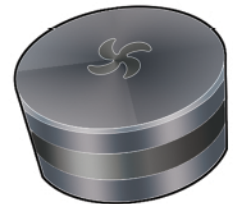

LONG-LASTING QUALITY

Industrial grade stainless steel baffle filters provide maximum effectiveness and durability, ensuring your hood outperforms and outlasts other similarly-priced hoods by a longshot.

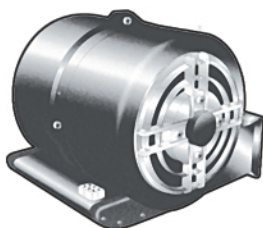

THE POWER TO CHOOSE

Some ventilation needs are stronger than others, that's why the M-Line comes with a 4-speed rotary knob control, allowing you to choose exactly how much ventilation you need.

COMMERCIAL-GRADE FILTRATION FOR THE HOME

Vent-A-Hood® M-Line products use the same high quality filtration components that you'd find in the kitchen of your favorite high-end steak house. That means you know your M-Line can handle whatever you throw at it, and it's built to last.

LET THERE BE LIGHT

Our M-Line hood comes equipped with the latest in LED lighting technology. After all, you want to be able to see your delicious creations while you're cooking them up.
